UTAK guarantees a ±25% recovery value from the target concentration for all analytes unless otherwise specified. For analytes listed with N/A stability, we do not guarantee a specific recovery range but ensure their presence in the control material.

Special Notes:

Above analytes outlined in red will be weighed and spiked into the above control(s); however, no claim has been made for expected values or stability.

Prior to manufacturing, customer will be sent a sample of the matrix for evaluation.
