UTAK guarantees a ±25% recovery value from the target concentration for all analytes unless otherwise specified. For analytes listed with N/A stability, we do not guarantee a specific recovery range but ensure their presence in the control material.

**Special Notes:**

Above analytes outlined in red will be weighed and spiked into the above control(s); however, no claim has been made for expected values or stability.  
 A sample of the matrix will be sent to the customer prior to manufacturing to determine baseline(s).
