UTAK guarantees a ±25% recovery value from the target concentration for all analytes unless otherwise specified. For analytes listed with N/A stability, we do not guarantee a specific recovery range but ensure their presence in the control material.

Going forward you will see handling and shipping fees as two separate line items where as before the handling and shipping were calculated together. If you are using your own shipping method you will just see the handling fee. The fe

Special Notes:

Above analytes outlined in red will be weighed and spiked into the above control(s); however, no claim has been made for expected values or stability.
