UTAK guarantees a ±25% recovery value from the target concentration for all analytes unless otherwise specified. For analytes listed with N/A stability, we do not guarantee a specific recovery range but ensure their presence in the control material.

**Special Notes:**

Customer requires CAL (DA CAL 1-7 S F PG) and QC (DA QC LM,H V2 S F PG) products to be manufactured with analytes sourced from two different suppliers or supplier lots.

- \*UTAK cannot guarantee different suppliers or supplier lots for the analytes listed above.

Above analytes outlined in red will be weighed and spiked into the above control(s); however, no claim has been made for expected values or stability.

A sample of the matrix will be sent to the customer prior to manufacturing to determine baseline(s).
