UTAK guarantees a $\pm 25\%$ recovery value from the target concentration for all analytes unless otherwise specified. For analytes listed with N/A stability, we do not guarantee a specific recovery range but ensure their presence in the control material.

Special Notes:

Above analytes outlined in red will be weighed and spiked into the above control(s); however, no claim has been made for expected values or stability. A sample of the matrix will be sent to the customer prior to manufacturing to determine baseline(s).
